Travel Technology Products And Solutions Provider

tavisca[®]
Travel Technology Specialists

A central graphic consisting of two interlocking grey gears. The larger gear on the left has an orange hexagonal center containing text. The smaller gear on the right contains a blue hexagonal area with images of a passport, several airline tickets, and a credit card. The background is white with faint grey geometric shapes and icons.

synchron is a
mid-office, business
process automation and
data synchronization
software for the
travel industry.

Ticketing notifications to inform end customers about their booking confirmation and ticket reservation, is effortless for travel businesses with synchron's automated notifications feature.

Schedule change notifications to intimate end customers, in case of any schedule changes made by the airline for specific flights with booked tickets.

Void notifications are easily managed for synchron users, where end customers who are eligible for a refund are notified instantly by synchron's automated notifications feature.

Cancellation and refund notifications are automatically sent to end customers to intimate them, in case of ticket cancellations and ticket refunds processed on cancelled PNRs.

Seat assignment and updates are easy to manage for synchron users. Travel businesses can quickly monitor and assign the best-available seats as per customer requests or airline schedule changes.

Miscellaneous transaction alerts for end customers, in case of fraud prevention and declined credit card payments, are efficiently managed for synchron users.

Segment status codes such as HX/UC/NO/UN for stale bookings are easily managed for users, thereby preventing agency debit memos and decreasing the fee paid to the GDS for segment bookings.

Unconfirmed segments for hotel bookings are managed efficiently for synchron users, by enabling them to check bookings against the supplier list and accordingly, call for action items.

About Us

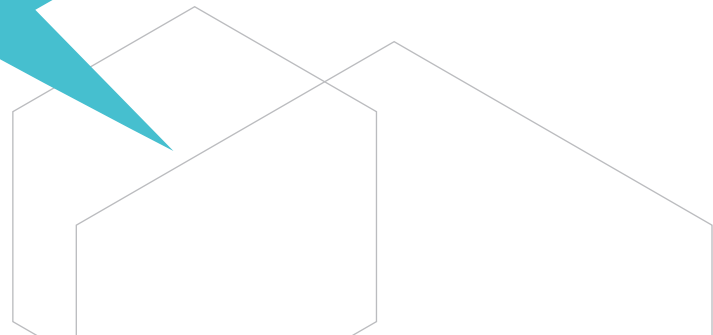

Tavisca Solutions, a travel technology products and solutions provider that works with (B2B, B2C and B2B2C) travel companies across the globe and helps them enhance their online business. With the vision to build future-focused technology building blocks that solve key challenges in online travel business, tavisca® offers a versatile suite of cloud-based SaaS products, deciphering every aspect of customer and agent facing booking engines, travel mid & back-office operation management systems.

Established in 2008, tavisca® has emerged into a team of travel technology specialists with over 300 dedicated personnel and three state-of-the-art development centers in India and the United States of America.

Today, tavisca® continues to soar at its position amongst the top 100 'GPTW' list of best places to work in India, for three consecutive years.

tavisca's core offering 'travelnxt' is a PCI PA-DSS compliant online travel booking management software that works across Air, Hotel, Car, Deals, Activity/Transfers and Insurance with a Strong Booking Engine, Static Package Builder and Inventory Management System. Annually, tavisca's travel technology empowers more than a million online travel bookings globally.

A Travel Technology products and solutions provider that works with (B2B, B2C and B2B2C) travel companies across the globe.
