Travel Technology Products And Solutions Provider

Travel Technology Specialists

About Us

Tavisca Solutions, a travel technology products and solutions provider that works with (B2B, B2C and B2B2C) travel companies across the globe and helps them enhance their online business. With the vision to build future-focused technology building blocks that solve key challenges in online travel business, tavisca® offers a versatile suite of cloud-based SaaS products, deciphering every aspect of customer and agent facing booking engines, travel mid & back-office operation management systems.

Established in 2008, tavisca® has emerged into a team of travel technology specialists with over 300 dedicated personnel and three state-of-the-art development centers in India and the United States of America.

Today, tavisca® continues to soar at its position amongst the top 100 'GPTW' list of best places to work in India, for three consecutive years.

tavisca's core offering 'travelnxt' is a PCI PA-DSS compliant online travel booking management software that works across Air, Hotel, Car, Deals, Activity/Transfers and Insurance with a Strong Booking Engine, Static Package Builder and Inventory Management System. Annually, tavisca's travel technology empowers more than a million online travel bookings globally.

A large, light gray magnifying glass graphic is positioned over the central text. The handle of the magnifying glass points towards the bottom left, and the lens is centered over the main text block. Inside the lens, there is a green circle containing the text.

A mid and back-office **travel agency management software**, which equips travel businesses with tools to manage day-to-day agency functions, starting from operations to revenue acquisition management.

Service requests from customers, affiliates and partners can be fulfilled in an organized and efficient manner by means of the user-friendly agency management console.

Monitor and regularize sales as well as rules for your brands and affiliates through the user-friendly business management console with granular control.

Sales and operations dashboard enables travel businesses to track, as well as manage sales and crucial business operations quickly and also helps optimizing efficiency.

Quick and easy onboarding for agencies and affiliates is achieved through automated features, where users can also control access rules for affiliates and partners easily.

Manage websites efficiently without IT help. The agency management system equips users to create and modify websites, and also launch promotions for sub-agencies and affiliates quickly.

Control yields effectively through a comprehensive yield management console that enables users to configure, monitor and modify markups, service fees, discounts, as well as commission rules.

Quick search feature enables travel business to filter out the details of customers, reservations and emails quickly, to provide end customers with seamless customer experience.

Sliced and diced reports from sales to reconciliation are easy for users to access and enables business owners to filter out relevant, as well as actionable information.

A Travel Technology products and solutions provider that works with (B2B, B2C and B2B2C) travel companies across the globe.
